

FOROURLIVES.ORG™
Pastors United for Life and Liberty

MISSION STATEMENT

FOR OUR LIVES will speak with the authority of the Almighty Father and in the name of our Lord Jesus Christ, to denounce Planned Parenthood and the violent slaughter of innocent Black lives.

We decry Planned Parenthood's targeting of people of color for population control and refuse to participate in or to fund the genocide.

We stand united to proclaim that we all are deliberate creations, made *by* God and in the image of God, and therefore human life cannot be taken justly or denied by any man, woman, or court of law.

We stand united in declaring that the abortion of a child - notably deemed by science and philosophy as a living human being in development – is not healthcare, but an act of violence and a crime against humanity.

We stand united in restating the Declaration "that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness", and in rejecting any action by government to deny the God-given right to life to the unborn.

We stand united in opposition to the denial of equal protection and due process to another class of people – the baby in the womb, who is treated as mere property and denied all human rights and bodily autonomy.

We stand united in defending our religious freedoms and in protesting the use of our tax dollars to fund abortions, particularly selective abortions based on race, gender or disability, or to fund any commercial use of fetal remains including fetal cell research and organ harvesting.

We stand united to restate the universal truth of Dr. Martin Luther King, Jr. that "injustice anywhere is a threat to justice everywhere". This includes *injustice in the womb*.

We stand united in demanding that the state, in order to be worthy of the public trust, must support "Liberty and Justice for all" beginning in the womb, and must defend the most fundamental liberty – the right to life, from conception until natural death.
